

PermaJet US Launch at Imaging USA!

UK Leader in InkJet Photo Papers,
Giclee Fine Art Papers & Canvases enters US Market.

PermaJet US announced that it will launch its line of InkJet Papers & Canvases at Imaging USA Expo in Nashville, TN February 1-3, 2015.

With more than 10,000 photographers descending upon the Music City for Imaging USA, PermaJet recognizes the convention as a “can’t miss” opportunity to present its product lines in front of this large group of professionals. “Professional photographers and imaging professionals are the heart of our business,” says Joseph Reiner - PermaJet’s spokesperson. “And Imaging USA is one of the best places to reach them.”

Find PermaJet in booth: 479.

Since 1999, PermaJet has been a manufacturer and supplier of the World’s most comprehensive range of inkjet papers for all digital photographic printing applications. Catering to a varied host of users including professional portrait & sports photographers, commercial labs, artists, museums, education facilities, as well as home printing photographers. has seen PermaJet become a very prominent brand. Based in Stratford-upon-Avon, UK, their inkjet media is sold throughout the UK and exported to more than twenty four different countries.

Popular selections being introduced in the USA include the award-winning Gloss, Oyster, Matt and Double-sided collections, along with a wide range of smooth, textured and fiber based Fine Art Papers across a comprehensive range of sheet and roll sizes.

PermaJet was also the first to develop a CIS bulk ink feed system for Epson Printers in the UK market back in 2001 as well as developing a unique range of inkjet canvases for art and photography reproduction.

All products are backed by a wealth of extensive technical inkjet knowledge and expertise with industry leading ICC Profiling and Color Management tools available to all users - all designed to help professionals achieve those perfect prints - **with PermaJet, it’s all about image!**
